

2017-18 Bragging Page 1 of 2

Member Sean Sarge and his 9 point shot on the first day of archery

Member Mike Uliano with the 9 point buck that he got in Illinois.

Keeping it in the family , Nicole Sarge, daughter of life member Carl Sarge harvested this deer in West Virginia.

Chris Sarge (son of Carl Sarge) and the buck that he harvested the first day.

Right is a picture of a "heart shot" on a Whitetail doe that (life member) Doug Hails shot this past muzzle loader season with a flint

lock using a .50 cal. round ball. Hearts have connections, not huge holes. Just shows that a good shot still trumps modern gadgets.

This was the 62nd deer that Doug harvested in his very long career. He was fortunate enough to have his son Brian along to help drag it out. Brian is also a member of the ISA.

My 12 yr old son Jakob Haynes harvested this 10pt buck on November 4th with his bow. Taken at 10 yards!

His second buck with a bow since he started hunting when he was 10 yrs old.

2017-18 Bragging Page 2 of 2

Brandy Petrill, daughter-in-law of Sam Petrill (retired ISA Financial Secretary) and the wild boar that she shot in Tenn. this past week while hunting with dogs. Evidently she had to get close to the boars to shoot with an arrow and was chased by several. I'll bet that boar could run faster than I or Brandy.

Dan Petrill, member of ISA and son of Sam Petrill (retired ISA Financial secretary) and his boar while hunting with dogs. Look at the size of that thing. Just looking at the head comparison with Dan might convince one to go back to rifles. On second look perhaps the heads on Brandy's and Dan's were very similar.

LIFE MEMBER Lew (fish fear me, girls love me) Tuccarello with a nice Bass that he got while fishing with his son Brian at Kinzua Dam
